

IRACOUPLING CONNECTION

Our proprietary piping and connection design eliminates step changes between pipes with zero-gap connections, dramatically reducing leading-edge wear. The Iracoupling enables field welding or clamping that is proven safe for polyurethane and neoprene rubber-lined pipes without damage to the lining materials.

Our Iracoupling Capabilities:

- Full strength connection above ASME 300# class rating – 5171 kPa (750 psi)
- Registered CRNs for all sizes – 8" to 48"
- Our simple clamped connection saves time and money in installation and pipe maintenance
- Easier rotation of long sections of pipe up to 1,000 meters
- Proven to be failure-free in the field since 2007
- Lowest wear pipe connection in the industry

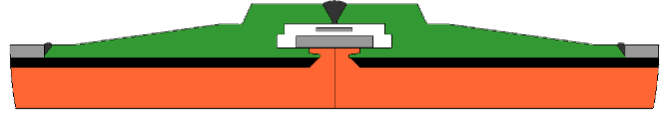

Learn more about Iracoupling at iracore.com

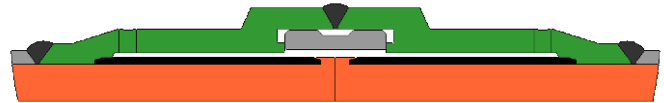

Type 2 Iracoupling:

Clampable/Weldable (Glycol Cooled): Extra Versatility – can be cut and re-welded or clamped

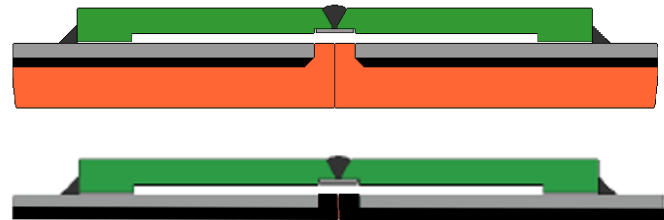

Type 3 Iracoupling AC:

Clampable/Weldable (Air Cooled)

Type 4 Iracoupling AC (Slip-On):

Weldable (Air Cooled)

Proven to Outperform

Since 1957, Iracore has been proven to outperform in our clients' toughest wear environments by leading the innovation, design, and manufacturing of engineered products, including lined pipe.

Studies have shown time and time again how Iracore materials deliver higher value than metal and other polymer materials.

Iracore is the manufacturer of elastomer wear products for abrasion and corrosion applications:

Urethane – Cast and Spin Cast:

- Iracore develops and compounds custom polyurethane materials for specific conditions

Rubber – Vulcanized and Cold Bond:

- Soft Natural Gum Rubber (NGR)
- Neoprene 0555*
- Moderate Oil Resistance (MORS)
- Chlorobutyl / Bromobutyl (Butyl)
- Hot Process Water and other custom applications

Iracore™-Lined Pipe:

- Specifically developed for cold-temperature and high-wear application.

* Highest wearing Neoprene for use in Oil Sands – rated by the NRC
